

# hubAI MANAGED SERVICES

## COVID-19 CONTACT TRACING

The pandemic has shown that our familiar environment can change drastically overnight. As we gradually re-open, or plan to re-open, the Government has mandated some procedures, like COVID-19 Contact Tracing, for all businesses that have customers or guests entering their facilities.

**SIMPLE AS  
SCANNING  
A QR CODE**

### ENSURING A SAFER RETURN TO A NEW NORMAL

As restrictive measures loosen, it becomes the responsibility of everyone to be mindful of their surroundings and prevent another wave of infections and lockdowns. Contact tracing is now the responsibility of all businesses.

Our solution allows you to conduct contact tracing without disrupting the privacy of your customers while saving time for your employees, money on paper-based processes and avoiding costly technology investments.

#### ✓ PRIVACY GUARANTEE

Our solution ensures a contact tracing process that respects privacy and embraces automation

#### ✓ UNIQUE QR CODE

Your business will be given its own unique URL or QR code. Customers visiting your business simply scans the QR code to register their presence and fill out the COVID-19 Health Screening Survey. The system captures the customer's information.

#### ✓ AUTOMATIC REPORTING

Upon completion of the survey, hubAI will compile all responses from registered customers that visited your establishment into one daily report that will be sent to you along with all records for a rolling 30 days, as per Government mandate.

### IMMEDIATE UPDATES

If the Government of Ontario makes any changes to the questions in the COVID-19 Health Screening process hubAI will ensure you are compliant.

Benefits of hubAI's Automated COVID-19 Contact Tracing:

- ✓ Easy and fast to deploy
- ✓ Secure
- ✓ No additional people or technology investment required
- ✓ Mitigates business risk and keeps you compliant
- ✓ Allows you to focus on customer satisfaction
- ✓ No more paper processes or paper filing
- ✓ Privacy compliant
- ✓ Reduces email backlogs
- ✓ Facilitates employee health safety
- ✓ Scalable
